**Software Solution**

**Request details**

I would like to ask a few direct questions to two departments under The Freedom of Information Act 2000; this information is for our internal knowledge and to try to establish which hospitals can benefit from the innovative software solution.

I have attached 2 word documents containing the questions we would like answered – for ease of data collection I have split them into departments - one is for the IT department to answer and the other is for the Pathology Lab to answer.

**Response details**

Please refer to the attached documents.
