

Freedom of Information Act 2000 - Request Reference FoI/20/069
Guidelines for the Treatment of Osteoporosis

Request details

Please could you tell me what if any guidelines your organisation follows for the treatment of Osteoporosis. If a local guideline is in place, please could I request a copy or a link if it is available on your website?

Response details

Cardiff and Vale University Health Board (the UHB) can confirm that combinations of the following guidelines are used for the treatment of Osteoporosis:

NICE, SIGN, ROS clinical standards, ROS vitamin D (locally adapted) FRAX/NOGG and RCP steroid guidelines.
