Denaturing of Controlled Drugs

Request details

I am making a FOI request about the Hospitals' denaturing of controlled drugs in the past 12 months.

- 1. Please advise the annual volume purchased of Controlled Drug Denature kits / Controlled Drug Destruction Kits by product size. Eg 100ml, 250ml, 500ml, 1L, 2L, 4L etc.**

Please see spreadsheet below.

- 2. How does the Hospital purchase these? Eg. Direct from manufacturer, other?**

Cardiff and Vale University Health Board (the UHB) purchase these directly from DENWARD MANUFACTURING LTD.

- 3. How does the Hospital decide which product range to purchase?**

These kits were purchased via the platform MultiQuote which is a pricing and sourcing service that enables the HB to check the market and buy at the best prices. MultiQuote enables buyers to investigate the market and find suppliers quickly and easily. Via the portal thousands of suppliers in the national database are able to access the quote and bid.

- 4. Who is responsible for managing the procurement of controlled drug denature kits?**

The Procurement team work closely with the end users/clinical teams to establish the requirements for the HB in order to procure the best possible product/service for the best value for money.

Answer Q1

Supplier Item	Description	Product Size	Purchase Year	Supplier	Total
CDK010	CONTROLLED DRUG DENATURING KIT 250ML JARS (PACK10) (CDK010)	250ml	2014	DENWARD MANUFACTURING LTD	61
