

Freedom of Information Act 2000 - Request Reference FoI/20/226
Business Continuity Plan in Relation to the Provision of Mental Health Services during
Covid-19

Request details

I am writing to request a copy of your Health Board's business continuity plan (in place we understand before 14 April 2020) in relation to the provision of mental health services during the present crisis. Specifically I am interested in either that part of your wider business continuity plan which related to mental health or the whole plan (if there is not a specific and self-contained part of the whole plan relating to mental health).

Response details

Please find attached document.
