

Freedom of Information Act 2000 - Request Reference FoI/20/378

Current Guidelines

Request details

I wish to make a freedom of information request for current guidelines for 'the use of hypoallergenic formulas for the diagnosis and management of Cows Milk allergy' as the one I have old , if this is still the current one could you confirm?

I have a very old version of your 'The hypoallergenic formulas for the diagnosis and management of Cow's Milk Allergy 'guidelines & cannot access link 'B2.01 - Special Infant Formulae' on <https://cavformulary.wales.nhs.uk/> formulary link.

Would you be so kind as to send me either the link or failing that a copy of your current guidance please

Response details
