

**Freedom of Information Act 2000 - Request Reference FoI/20/403**  
**Prescribing Patterns of Antidepressants**

**Request details**

The project is based around prescribing patterns of antidepressants at each GP cluster in NHS Wales. I recently contacted Public Health Wales for freedom of information request, but I have been advised to contact each local health board individually as you might have the information that I require.

I am looking for data from 2015 and 2019, for the number of patients that are registered to have a diagnosis of depression in each of the primary care GP clusters within the health board. I would be grateful if the information displayed the number of cases for the specified year for each individual GP cluster.

**Response details**

Cardiff and Vale University Health Board (the UHB) do not hold this information. To comply with our Section 16 obligation, the duty to provide advice and assistance, the UHB would like to advise that this information is held on each individual GP Clinical system and each GP Practice would need to be contacted.
