

Freedom of Information Act 2000 - Request Reference Fol/21/258
Digital and Health Intelligence Annual Budget

Request details

What is your annual IT Budget for 2020 & 2021?

2019-2020 - £7,785,352

2020-2021 - £10,303,632

Storage:

1. **What storage vendor(s) and models do you currently use?**
2. **What is the capacity of the storage data in TB & how much of it is utilized?**
3. **What were the installation dates of the above storage vendors(month/year)**
4. **When is your planned (or estimated) storage refresh date? (month/year)**
5. **Do you have any extended warranties, if so, with which supplier?**
6. **What is your estimated budget for the storage refresh?**

Server/Compute:

1. **What server vendor(s) and models do you currently use?**
2. **What were the installation dates of the above server vendor(s) (month/year)**
3. **When is your planned (or estimated) server refresh date? (month/year)**
4. **What is your estimated budget for the server refresh?**
5. **Do you have any extended warranties, if so, with which supplier?**
6. **Which operating systems are used?**

Network and Security:

1. **What network vendor(s) and models do you currently use?**
2. **What are the quantities of the Edge, Core and MP used in your network?**
3. **What network architecture is currently use?**

Cardiff and Vale University Health Board (the UHB) is withholding this information, relying on Section 31 (1) (a) of the Freedom of Information Act 2000 (prevention and detection of crime). Specifically, the UHB believes that disclosing details regarding its ICT infrastructure, or support of that infrastructure, would be likely to prejudice the prevention of crime, particularly cyber-crime. As this is a qualified exemption, the UHB is required to complete a public interest test in deciding whether it is in the public's interest to withhold or disclose the information.

Public Interest Test:

In favour of disclosure: The UHB recognises there is a public interest in transparency and in public authorities demonstrating that their systems effectively protect personal data.

Against disclosure: There is a very strong public interest in protecting the extremely sensitive data held by the UHB. Cyber Security and the associated Cyber-Risk / Cyber-Attacks represent a rapidly evolving arena that becomes more complex and dangerous with time.

Releasing details of the UHB's ICT infrastructure into the public domain significantly reduces its capacity to manage this threat to the stated public interest by exposing potential vulnerabilities.

Decision: The UHB considers that the public interest in withholding the information is significantly greater than any interest there may be in disclosing it and potentially exposing sensitive personal data to an increased level of risk. The UHB strongly believes that posing additional unnecessary risk to the UHB, and consequently patient care and safety, would be viewed as an unacceptable risk by the public. Whilst the UHB acknowledges a public interest in providing assurances of effective protection of personal data, it believes the most effective means of increasing public confidence in data protection is to successfully protect the data itself. The UHB considers its responsibility to protect the personal data of patients and staff to be of the highest importance. It was therefore decided that it was not in the public's interest to disclose this information.
