

**Freedom of Information Act 2000 - Request Reference FoI/21/289**

**Velindre Hospital - Land**

**Request Details**

I understand the land where the current Velindre hospital is, off Velindre Road in North Cardiff, is due to come under the ownership of Cardiff and Vale UHB, once the new Cancer Centre is built. Please could you send me relevant documents about what the health board plans to do with this land, once the new Cancer Centre opens.

**Response Details**

Cardiff and Vale University Health Board (the UHB) has not identified a use for the land which formed part of the land transaction relating to Northern Meadows.

It is several years before the Velindre Cancer Centre will be operational and consideration will be given to any future use of the land by the UHB to support patient services if there is a requirement.

Should no use be identified at the time of the opening of the new Velindre Cancer Centre then the UHB may declare the site surplus and dispose of it accordingly.
