Notes to Aid Completion of the Request

- **Please note that not all questions will be applicable to your organisation.**
- Please avoid adding extra text in areas other than the free text boxes provided. Most questions have multiple choice options for ease of answering.
- Boxes with a red outline indicate a dropdown multiple choice question.
Please click on the box to select your answer.  Choose an item.
- Small boxes in multiple choice questions can be clicked on to mark an 'x' in that answer.

Definitions

Organisation: The trust or health board that this request was sent to.

Last financial year: 1st April 2020 - 31st March 2021

Mandatory training: "is compulsory training that is determined essential by an organisation for the safe and efficient delivery of services. This type of training is designed to reduce organisational risks and comply with local or national policies and government guidelines."

Taken from: Royal College of Nursing, 2018. *Training: statutory and mandatory* [Online]

If you have any questions, please do not hesitate to get in touch by email: ceo@babylifeline.org.uk

1. Responders to the Request

1. Could you tell us the job roles of all the individuals who provided information for this request?

Head of Midwifery, Practice Education Facilitator, Clinical Director, Obstetric lead

2. Please provide us with the details of a main clinical point of contact for this request.

We will use this information to follow-up on your organisation's response, ask for feedback, and forward the published report of the national response to this survey.

Name	Suzanne Hardacre
Email	Suzanne.hardacre@wales.nhs.uk
Telephone	02920 745190
Job Role	Head of Midwifery
Employing organisation	Cardiff and Vale University Health Board

3. Around how many babies were delivered by your organisation over the last financial year?

More than 4000

2. The Management of Maternity Services Staff Training

1. Which statement most closely resembles how training for staff working within maternity services is prioritised in your organisation?

Training priorities for different staff groups (e.g. for midwifery, obstetrics, obstetric anaesthesia, AHPs) are reviewed and decided separately by training leads in each discipline.

Training priorities for different staff groups are reviewed and decided mostly separately by training leads in each discipline, but with some collaboration between disciplines for specific aspects/topics (e.g. skills drills)

Training priorities for the whole maternity service are reviewed and decided collaboratively by a multi-professional group which includes midwifery, obstetric and anaesthetic representatives as a minimum.

2. Please provide the role(s)/job title(s) of those involved in reviewing and deciding training priorities for your maternity service.

Head of midwifery, Senior midwifery management team, Practice Education Facilitator, PROMPT Wales, PROMPT Faculty, Clinical Director, HEIW Educational Supervisors, Risk and Governance Maternity Team

3. What information is considered when deciding training priorities/Training Needs Analyses for maternity services within your organisation? (Please select all that apply)

Serious incidents

National guidance

Near-misses

National reviews of morbidity and mortality

Complaints

Staff feedback/request

Needs identified in local population

Local review of outcome data

Maternity Incentive Scheme

New research/evidence

The Core Competency Framework

None of the above

Other (please specify)

4. How often are training priorities reviewed and updated for your maternity service?

Twice per year

5. Thinking about time allocated for staff to attend training/CPD activities...

- a. Did your organisation allocate a percentage uplift specifically for midwives to attend CPD training?
(*separate to uplift allocated for sickness/other absences*)

No

Yes (*what percentage was used?*)

%There is a 26.9% uplift for training, mat leave and sickness. This is not differentiated.

- b. Did your organisation allocate a percentage uplift specifically for maternity support workers to attend CPD training? (*separate to uplift allocated for sickness/other absences*)

No

Yes (*what percentage was used?*)

% as above.

- c. How many days of study leave were available in your organisation for junior doctors working within obstetrics (at registrar level) to attend CPD training? (*if this varied, please provide an average*)

30 Days per year

- d. How many days of study leave were available in your organisation for consultants working within obstetrics to attend CPD training? (*if this varied, please provide an average*)

10 Days per year

- e. How many hours per week of *supporting professional activities* (SPA) time was allocated in your organisation to consultants working within obstetrics? (*if this varied, please provide an average*)

7.5 Hours per week

3. The Assessment of Maternity Services Staff Training

1. Is data analysed and course content modified in response to evaluation of training programmes provided to maternity staff at your organisation?

No

Yes (*please give an example below*)

Evaluations of course programmes are reviewed and adapted accordingly

2. At which time points do you collect evaluation data on your in-house training? (*select all that apply*)

Immediately pre-course

Immediately post-course

After a period of time has passed since training (*please specify e.g. 12 weeks*)

3. Do you evaluate whether any training you provide has an impact on clinical outcomes (e.g. post-partum haemorrhage, hypoxic ischaemic encephalopathy)?

No

Yes (please explain how below)

Use of OBS Cymru

4. Of the training topics provided to maternity staff by your organisation, what percentage do you evaluate using clinical outcomes?

None

5. What are the barriers to fully evaluating the maternity training provided within your organisation?

Poor staffing in the practice education team

Lack of guidance/information on assessment methodologies

No barriers identified

Other (please specify)

4. The Delivery of Maternity Services Staff Training

1. Do you involve other specialities in your training by either involving them in delivery of training, or inviting them to attend? *e.g. Involving paramedics in community skills & drills training, or critical care staff in training on management of the acutely unwell woman.*

No

Yes (please give brief examples below)

Paramedics and Health visitors to Community Prompt, Anaesthetic and Neonatal Teams

2. Have you identified barriers to providing multi-professional training? *i.e. different professionals (obstetricians, midwives, obstetric anaesthetists, etc) in the maternity team training together*

No

Yes (please give brief examples below)

3. Do you tailor your training to allow staff to upskill in topics relating to the specific characteristics of your local pregnant population? *This involves knowing the local demographic and possible vulnerabilities (e.g. aging population, women with multiple disadvantages, specific diseases).*

No

Yes (please give brief examples below)

Staff in specialist roles are extended opportunities to attend training relevant to their field of expertise

4. Are staff qualified in examination of the newborn (NIPE) required to attend refresher training?

Yes

No

5. Did you use external providers to deliver any of the training provided to your maternity staff in the last financial year?

No

Yes (please list the providers used below)

5. Attendance at Maternity Services Staff Training

1. With regard to mandatory training, do you audit how often maternity staff attend updates within the time specified by your organisation's guidelines?

Yes

No

If no, please skip to Section 6 "Training Budgets"

2. When audited, what was the rate of timely attendance for all staff at mandatory training/updates?

76-85%

3. What was the rate of timely attendance for midwives?

Not audited

4. What was the rate of timely attendance for consultant obstetricians?

Not audited

5. What was the rate of timely attendance for junior doctors working in obstetrics?

Not audited

6. What was the rate of timely attendance for consultant obstetric anaesthetists?

Not audited

7. What was the rate of timely attendance for junior doctors working in obstetric anaesthesia?

Not audited

8. What was the rate of timely attendance for other staff groups (e.g. ODPs, MSWs)?

Not audited

6. Training Budgets

1. What was the amount (£) spent on direct costs of maternity training provision over the past financial year by your organisation (from any source)? *This might include venue costs, costs of paying external providers, etc.*

£ We do not have a separate budget. Time is allocated from within existing resource and supported via LED departments

2. Did your organisation budget for backfill of those staff attending training?

No

Yes (please specify how much was spent on this over the past financial year)

£ built into current workforce and uplift this information is not available.

3. Thinking about the source of these funds, what percentage was provided by each of the following:

Allocated by the organisation	% not available
Health Education England	% n/a
Hospital Charity Funds	% n/a
Other (please specify)	% from

4. Within your organisation, do you provide an individual allocated budget for professionals in the following groups to attend CPD training?

- a. An individual CPD budget per midwife?
 Yes No
- b. An individual CPD budget per junior doctor working within maternity services?
 Yes No
- c. An individual CPD budget per consultant working within maternity services?
 Yes No
- d. Do any other staff groups have an individual CPD budget allocated?
 No
 Yes (please specify which)

7. Training Topics

The following sections will ask you to provide details about which topics of training were provided to maternity staff at your organisation over the past financial year. We will also ask about the content and format of training provided.

Your answers should include training considered mandatory; training provided but considered non-mandatory; training provided in-house; training which was commissioned by the organisation but provided by external agencies and also training provided via any medium (e.g. online or workshop based).

When answering, please include training provided to **any** member of clinical maternity staff.

We will be asking you about training provided under the following topic headings:

1	Emergency skills & drills: <i>Including shoulder dystocia, cord prolapse, eclampsia, hypertensive crisis, antepartum & postpartum haemorrhage, vaginal breech birth, uterine inversion, uterine rupture, amniotic fluid embolism, maternal collapse, water birth/pool drill, covid-19 positive emergency, impacted fetal head, anaesthetic related emergency and intrapartum deinfibulation</i>
2	Fetal monitoring: <i>Including Continuous Electronic Fetal Monitoring (CTG) and Intermittent Auscultation</i>
3	Interpersonal and human factors skills: <i>Including communication, situational awareness, communication/handover tools, cognitive bias, impact of stress/fatigue/workload and escalation</i>
4	Early recognition & management of the acutely unwell woman: <i>Including early recognition, enhanced maternal care, maternal critical care, and assessment and management of a covid-19 positive woman</i>
5	Sepsis: <i>Including recognition and management of maternal sepsis and recognition and management of neonatal sepsis</i>

6	Co-morbidities in pregnancy/management of high-risk pregnancies: <i>Including hypertension, diabetes, obesity/women post bariatric surgery, thromboembolism, cardiovascular disease, epilepsy, advanced maternal age, teenage pregnancy, twin pregnancy, stroke, malignancy</i>
7	Adult/maternal life support
8	Newborn life support
9	Learning from adverse events: <i>Including incident reporting, learning from adverse events, candour, and family engagement</i>
10	Informed consent
11	Other professional issues: <i>Including documentation of care, raising concerns/whistleblowing, and personalised care</i>
12	Reducing smoking in pregnancy
13	Screening for fetal growth: <i>Including measurement of symphysis fundal height (SFH), plotting and interpretation of SFH using local charts and when to refer</i>
14	Preterm birth: <i>Including recognition of women at risk, appropriate referral/preventative strategies, and optimisation of perinatal care for the extremely preterm infant</i>
15	Management of reduced fetal movement
16	Ongoing antenatal and peripartum risk assessment: <i>Including antenatal & intrapartum risk assessment, planning place of birth, appropriate transfer, appropriate referral/shared-care, and reducing risk of transmission of serious infection to the fetus/neonate</i>
17	Assessment, management and prevention of perineal trauma: <i>Including management of first, second, third and fourth degree tears, and prevention</i>
18	Perinatal mental health
19	Bereavement care
20	Newborn care: <i>Including neonatal hypoglycaemia, neonatal jaundice, thermoregulation, procedures and positioning for safe skin-to-skin care, newborn feeding, and examination of the newborn</i>
21	Care of women following operative interventions
22	Induction and augmentation of labour
23	Instrumental and assisted delivery: <i>Including forceps delivery, ventouse delivery, and manual rotation</i>
24	Pain relief during labour and birth: <i>Including safety, choice, access, and consent, and care of epidurals</i>
25	Cultural competency
26	Safeguarding adults: <i>Including handling disclosure and domestic and sexual violence</i>
27	Resilience/wellbeing for healthcare professionals
28	Promoting normality in childbirth
29	Complementary therapies
30	Family planning and contraception
31	Safeguarding children and young people
32	Substance misuse
33	Other maternity training

8. Thinking about training offered to maternity staff by your organisation over the last financial year...

Topic 1

- 1a. Did your organisation offer **emergency skills & drills** training to maternity staff in the last financial year?
Including shoulder dystocia, cord prolapse, eclampsia, hypertensive crisis, antepartum & postpartum haemorrhage, vaginal breech birth, uterine inversion, uterine rupture, amniotic fluid embolism, maternal collapse, water birth/pool drill, covid-19 positive emergency, impacted fetal head, anaesthetic related emergency and intrapartum deinfibulation.
- Yes, and it was mandatory training for some/all staff
 Yes, but it was not part of mandatory training
 No, this topic was not offered to staff by the organisation

If you did not provide this training, please skip to Section 9 (Topic 2).

- 1b. What specific training was provided as part of this topic? *(Please click all that apply)*
- | | |
|--|---|
| <input checked="" type="checkbox"/> Shoulder dystocia | <input checked="" type="checkbox"/> Amniotic fluid embolism |
| <input checked="" type="checkbox"/> Cord prolapse | <input checked="" type="checkbox"/> Maternal collapse |
| <input checked="" type="checkbox"/> Eclampsia | <input checked="" type="checkbox"/> Water birth/pool drill |

| <input checked="" type="checkbox"/> Antepartum haemorrhage | <input checked="" type="checkbox"/> Impacted fetal head |
| <input checked="" type="checkbox"/> Postpartum haemorrhage | <input checked="" type="checkbox"/> Intrapartum deinfibulation |
| <input checked="" type="checkbox"/> Vaginal breech birth | <input checked="" type="checkbox"/> Maternal collapse due to anaesthetic intervention |
| <input checked="" type="checkbox"/> Uterine inversion | |
| <input checked="" type="checkbox"/> Uterine rupture | |
| <input type="checkbox"/> Other <i>(please specify)</i> | |

- 1c. Did your organisation provide **emergency skills & drills** training which was specific to the pre-hospital setting (i.e. specifically for community midwives)?
 Yes No
- 1d. Did training in this topic include consideration of the impact of 'human factors' in emergency scenarios (e.g. communication/situational awareness)?
 Yes No
- 1e. Did **emergency skills & drills** training include simulation of unit-specific emergency escalation/communication protocols?
 Yes No
- 1f. Do you use real-life scenarios and cases in your **emergency skills & drills** training? *(e.g. MBRRACE-UK vignettes)*
 Yes No
- 1g. Did training provided include developing an awareness of indications and use for cell salvage?
 Yes No
- 1h. Does training in **emergency skills & drills** include scenarios involving women whose first language is not English?

Yes No

1i. Did training in **emergency skills & drills** include identification of clinical signs in people with black and brown skin?

Yes No

If you provided this topic, but it was not part of mandatory training, please skip to question 5 in this section.

2. If you indicated that this training was considered mandatory, which professional groups were required to attend?

Midwives	Obstetricians	Obstetric Anaesthetists	Maternity Support Workers	Other maternity allied health professionals
<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

3. If mandatory, how often is it required that relevant staff complete this training?

Yearly

4. If mandatory, what was the minimum duration of training mandated for relevant staff on this topic?

(number of hours attended for training to be considered complete)

More than 7 hours - 8 hours

5. If more than one professional group attended this training, did they attend it together?

Yes, multi-professional training was provided on this topic

6. Who delivered the training on this topic for staff at your organisation, over the last financial year?

A combination of the above

7. How was this training delivered? *(Please select all that apply)*

<u>Live Training</u>	Face-to-Face	Online
Live Lecture-Based	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Other (please specify)

8a. At your organisation, was competency in fetal monitoring assessed?

No

Yes (please specify **how** it was assessed)

Questionnaire

8b. If competency was assessed and not passed, were relevant clinical duties removed until competent?

Yes

No

8c. Did you evaluate the training delivered on this topic?

Yes

No

8d. If you collect evaluation data for training on this topic, please attach an example/examples of methods used to evaluate this training at your organisation to your response.

I have attached an evaluation form

I do not have an evaluation form

9. If you have anything you would like to add which is relevant to this topic, please comment below

10. Thinking about training offered to maternity staff by your organisation over the last financial year...

Topic 3

1a. Did your organisation offer interpersonal and human factors skills training to maternity staff in the last financial year? Including communication, situational awareness, communication/handover tools, cognitive bias, impact of stress/fatigue/workload and escalation

- Yes, and it was mandatory training for some/all staff
- Yes, but it was not part of mandatory training
- No, this topic was not offered to staff by the organisation

If you did not provide this training, please skip to Section 11 (Topic 4).

1b. What specific training was provided as part of this topic? *(Please click all that apply)*

- Communication
- Situational awareness
- Tools to aid communication/handover
- Other *(please specify)*
- Cognitive bias
- Impact of stress/fatigue/workload
- Escalation

If you provided this topic, but it was not part of mandatory training, please skip to question 5 in this section.

2. If you indicated that this training was considered mandatory, which professional groups were required to attend?

Midwives	Obstetricians	Obstetric Anaesthetists	Maternity Support Workers	Other maternity allied health professionals
<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

Yes No

9. If you have anything you would like to add which is relevant to this topic, please comment below

11. Thinking about training offered to maternity staff by your organisation over the last financial year...

Topic 4

1a. Did your organisation offer training on [early recognition and management of the acutely unwell woman](#) to maternity staff in the last financial year? *Including early recognition, enhanced maternal care, maternal critical care, and assessment and management of a covid-19 positive woman*

- Yes, and it was mandatory training for some/all staff
- Yes, but it was not part of mandatory training
- No, this topic was not offered to staff by the organisation

If you did not provide this training, please skip to Section 12 (Topic 5).

1b. **What specific training was provided as part of this topic?** *(Please click all that apply)*

- Early recognition of the acutely unwell woman
- Enhanced Maternal Care
- Maternal Critical Care, including:
 - the use of maternal critical care observation charts
 - structured review proformas
 - deterioration & escalation thresholds
 - timing of birth
 - postnatal care
- Assessment and management of a covid-19 positive woman
- Other *(please specify)*

1c. **Did training in this topic include appropriate use of maternal early warning systems (MEOWS or similar)?**

- Yes No

If you provided this topic, but it was not part of mandatory training, please skip to question 5 in this section.

2. **If you indicated that this training was considered mandatory, which professional groups were required to attend?**

Midwives	Obstetricians	Obstetric Anaesthetists	Maternity Support Workers	Other maternity allied health professionals

13. Thinking about training offered to maternity staff by your organisation over the last financial year...

Topic 6

1a. Did your organisation offer training on co-morbidities in pregnancy/management of high-risk pregnancies to maternity staff in the last financial year? *Including hypertension, diabetes, obesity/women post bariatric surgery, thromboembolism, cardiovascular disease, epilepsy, advanced maternal age, teenage pregnancy, twin pregnancy, stroke, malignancy*

- Yes, and it was mandatory training for some/all staff
- Yes, but it was not part of mandatory training
- No, this topic was not offered to staff by the organisation

If you did not provide this training, please skip to Section 14 (Topic 7).

1b. What specific training was provided as part of this topic? *(Please click all that apply)*

- Hypertension
- Diabetes
- Obesity/women post bariatric surgery
- Thromboembolism
- Cardiovascular disease
- Epilepsy
- Other *(please specify)*
- Advanced maternal age
- Teenage Pregnancy
- Twin Pregnancy
- Stroke
- Malignancy

If you provided this topic, but it was not part of mandatory training, please skip to question 5 in this section.

2. If you indicated that this training was considered mandatory, which professional groups were required to attend?

Midwives	Obstetricians	Obstetric Anaesthetists	Maternity Support Workers	Other maternity allied health professionals
<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

3. If mandatory, how often is it required that relevant staff complete this training?
Yearly

4. If mandatory, what was the minimum duration of training mandated for relevant staff on this topic?
(number of hours attended for training to be considered complete)
More than 7 hours - 8 hours

5. If more than one professional group attended this training, did they attend it together?
Yes, multi-professional training was provided on this topic

6. Who delivered the training on this topic for staff at your organisation, over the last financial year?
A combination of the above

7. How was this training delivered? *(Please select all that apply)*

8a. At your organisation, was competency in processes for screening for fetal growth assessed? *(as relevant to staff role, including measurement of SFH, use and interpretation of charts, ultrasound scanning for growth and uterine artery doppler measurement)*

No

Yes *(please specify what was assessed and how it was assessed)*

8b. If competency was assessed and not passed, were relevant clinical duties removed until competent?

- Yes No

8c. Did you evaluate the training delivered on this topic?

- Yes No

9. If you have anything you would like to add which is relevant to this topic, please comment below

21. Thinking about training offered to maternity staff by your organisation over the last financial year...

Topic 14

1a. Did your organisation offer training on **preterm birth** to maternity staff in the last financial year? *Including recognition of women at risk, appropriate referral/preventative strategies, and optimisation of perinatal care for the extremely preterm infant*

- Yes, and it was mandatory training for some/all staff
 Yes, but it was not part of mandatory training
 No, this topic was not offered to staff by the organisation

If you did not provide this training, please skip to Section 22 (Topic 15).

1b. If you indicated that training on **preterm birth** was provided by your organisation, what specific training was provided as part of this topic? *(please tick all those provided)*

- Recognition of women at high risk of preterm birth
 Appropriate referral of at-risk women to specialist services and/or preventative strategies
 Optimising perinatal care for the extremely preterm infant (as per BAPM framework for practice)
- Training for relevant staff in transvaginal US cervix scanning and interpretation in **asymptomatic** women at high risk of preterm birth.
- Training for relevant staff in the application and interpretation of transvaginal US cervix scanning **and/or** other near-patient tests (such as fibronectin) in **symptomatic** women at high risk of preterm birth.
- Training for relevant staff on strategies for preventing preterm birth (such as cerclage, arabin pessary insertion, or use of vaginal progesterone administration).
- Other training on preterm birth *(please specify)*

1c. Did maternity staff have the opportunity to attend multidisciplinary training on optimising perinatal care for the extremely preterm infant with the neonatal team?

- Yes No

If you provided this topic, but it was not part of mandatory training, please skip to question 5 in this section.

2. If you indicated that training on **preterm birth** was considered mandatory, which professional groups were required to attend sessions provided?

23. Thinking about training offered to maternity staff by your organisation over the last financial year...

Topic 16

- 1a. Did your organisation offer training to maternity staff on [ongoing antenatal and peripartum risk assessment](#) in the last financial year? *Including antenatal & intrapartum risk assessment, planning place of birth, appropriate transfer, appropriate referral/shared-care, and reducing risk of transmission of serious infection to the fetus/neonate*

- Yes, and it was mandatory training for some/all staff
 Yes, but it was not part of mandatory training
 No, this topic was not offered to staff by the organisation

If you did not provide this training, please skip to Section 24 (Topic 17).

- 1b. What specific training was provided to staff at your organisation as part of this topic? *(please tick all those provided)*

- Antenatal Risk Assessment
 Planning Place of Birth
 Intrapartum Risk Assessment
 Appropriate Transfer
 Appropriate/timely referral to other specialities and shared-care *(e.g. neurology input for women with epilepsy).*

- Did training include risk-factors for transmission (and strategies for reducing risk) of serious infection to the fetus/neonate during pregnancy, birth, and postnatally?

- Yes, general risk factors
 Yes, specific information about Group-B Streptococcus (GBS)
 Yes, specific information about Herpes Simplex Virus (HSV)
 Yes, specific information about Cytomegalovirus (CMV)

- Other training relating to ongoing risk assessment or specific information about other infections not mentioned above *(please specify)*

If you provided this topic, but it was not part of mandatory training, please skip to please skip to Section 24 (Topic 17).

2. If you indicated that training on **ongoing antenatal and peripartum risk assessment** was considered **mandatory**, which professional groups were required to attend sessions provided?

	Midwives	Obstetricians	Obstetric Anaesthetists	Maternity Support Workers	Other maternity allied health professionals
Antenatal risk assessment	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Planning place of birth	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Appropriate referral and shared-care	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Reducing risk of transmission of serious infection to the fetus/neonate	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

24. Thinking about training offered to maternity staff by your organisation over the last financial year...

Topic 17

- 1a. Did your organisation offer training on **assessment, management and prevention of perineal trauma to maternity staff in the last financial year?** *Including management of first, second, third and fourth degree tears, and prevention*
- Yes, and it was mandatory training for some/all staff
 Yes, but it was not part of mandatory training
 No, this topic was not offered to staff by the organisation

If you did not provide this training, please skip to Section 25 (Topic 18).

- 1b. What specific training was provided to staff at your organisation as part of this topic? *(please tick all those provided)*
- Prevention of perineal trauma
 Assessment and management of first degree tears
 Assessment and management of second degree tears
 Assessment and management of third degree tears
 Assessment and management of fourth degree tears

If you provided this topic, but it was not part of mandatory training, please skip to question 5 in this section.

2. If you indicated that this training was considered mandatory, which professional groups were required to attend?

Midwives	Obstetricians	Obstetric Anaesthetists	Maternity Support Workers	Other maternity allied health professionals
<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

3. If mandatory, how often is it required that relevant staff complete this training?

4. If mandatory, what was the minimum duration of training mandated for relevant staff on this topic?

(number of hours attended for training to be considered complete)

5. If more than one professional group attended this training, did they attend it together?

No, different professional groups attended training separately

6. Who delivered the training on this topic for staff at your organisation, over the last financial year?

Providers directly employed by the Trust (In-House)

7. How was this training delivered? *(Please select all that apply)*

Topic 31	Safeguarding children and young people	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Topic 32	Substance misuse	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

35.

Topic 33

Did your organisation offer any other training in the last financial year which is provided specifically to staff working in maternity services?

No

Yes (please speci

36. Learning During a Pandemic

1a. Did you provide tailored training to staff who, due to the pandemic, were redeployed to an area within maternity services that differed to their usual role, during the past financial year?

Yes No

1b. If yes, did you assess whether these staff were competent in necessary skills prior to them practicing independently in a new area?

No
 Yes (*how?*)

As staff were already known to us

2a. Have you/do you intend to provide tailored training to staff who, due to the pandemic, have been unable to fulfil their usual role due to a period of shielding, and have/are planning to return to their usual place of work?

Yes No

2b. If yes, did you/do you plan to assess whether these staff are competent in necessary skills prior to them practicing independently on their return?

No
 Yes (*how?*)

3a. Did this year's Covid-19 pandemic cause you to provide any other training that was additional to what you had planned, specifically delivered to help maternity staff meet the potential additional needs of/risks to women during the pandemic?

No
 Yes (*please specify*)

Updates in line with RCOG guidance

3b. Did this year's Covid-19 pandemic cause you to adapt the training you would have otherwise provided in any other way? (*this includes method of delivery, duration, evaluation etc.*)

No
 Yes (*please describe the adaptations that were made*)

Blended approach using teams, face to face and online learning platforms

3c. If you adapted the training offered, are there any changes that you plan to retain when prioritising and delivering training in the future (i.e. when pandemic restrictions are no longer in place)?

No
 Yes (*please specify what they are and the rationale for retaining these changes*)

Some training can continue to be delivered online

37. Final Thoughts

1. In your organisation, have you identified barriers to providing training? If so, what were they? *(Please select all that apply)*

- | | |
|--|--|
| <input checked="" type="checkbox"/> Staffing | <input type="checkbox"/> Facilitator availability |
| <input type="checkbox"/> Financial | <input type="checkbox"/> Location of relevant training courses |
| <input checked="" type="checkbox"/> Equipment | <input checked="" type="checkbox"/> The COVID-19 pandemic |
| <input checked="" type="checkbox"/> Venue restrictions | <input type="checkbox"/> No barriers identified |
| <input checked="" type="checkbox"/> Venue availability | |
| <input type="checkbox"/> Other <i>(please specify)</i> | |

2. In your organisation, have you identified barriers to staff attendance at scheduled training? If so, what were they? *(Please select all that apply)*

- | | |
|--|---|
| <input checked="" type="checkbox"/> Staffing | <input type="checkbox"/> Communication |
| <input type="checkbox"/> Sickness | <input checked="" type="checkbox"/> The COVID-19 pandemic |
| <input type="checkbox"/> No barriers identified | |
| <input type="checkbox"/> Other <i>(please specify)</i> | |

3. About how long did it take to compile your organisation's responses to questions in this survey?
Less than 3 hours

4. Do you have any further comments, questions or concerns?
