Freedom of Information Act 2000 - Request Reference FoI/22/387
Mental Health Service Wait Times

Please provide the following information about Autism, ADHD, Dyspraxia, Dyslexia and Tourette's Syndrome waiting times for both adults and children:

1. The total number of people on waiting lists and,

Adults - 399

Children - 1710

2. The average waiting time from referral to assessment, as well as the longest recorded waiting time for each condition and,

Adults - Current average waiting time is 34 weeks. Longest current wait is 105 weeks

Children – Current average is 88 weeks. Longest current wait is 134 weeks.

3. The total number of people who have been referred for an assessment but been unsuccessful due to refusals of application

Adults – For the last financial year (2021-22) 61 referrals were declined.

Children – 901 referrals were declined for a neuro-diverse assessment between 1/08/2021 and 1/08/2022, however some declined referrals would have been subsequently accepted onto the waiting list when more information had been provided by school/education that met the ND service criteria.
