

Freedom of Information Act 2000 - Request Reference FoI/22/622

Neurology

- 1. The number of NHS Functional neurological disorder/conversion disorder/functional seizure specific departments or centres in your health board.**

0

- 2. The most common diagnostic tests used across your health board to diagnose patients with functional neurological disorder/conversion disorder/functional seizures in the last 5 years.**

Selfie video, EEG, MRI, history

- 3. The most common treatments used across your health board to support patients with Functional neurological disorder/conversion disorder/functional seizures in the last 5 years.**

No treatments as there is not currently a psychology service provided to these patients

- 4. The number of patients in your health board diagnosed with Functional neurological disorder/conversion disorder/functional seizures in the last 5 years**

In completing a search for the information requested, Cardiff and Vale University Health Board (the UHB) has confirmed that this information is not centrally recorded or collated. To retrieve the information requested would require a manual search through individual patient records and the UHB considers that this would exceed the limit set within regulations for responding to a request. The UHB has therefore relied upon the Section 12 exemption ('Exemption where cost of compliance exceeds appropriate limit') of the Freedom of Information Act 2000 and is refusing your request.

The UHB has estimated that to complete the work needed to respond to this request would exceed the time limit as set within regulations to respond to a Freedom of Information Act request. Under the Act there is an allowance of two and a half days, or 18 hours, to comply with a request and the cost limit set within the fees' regulations for this amount of work (18 hours) is £450 for the UHB. The fees regulations specify that the cost of complying with a request must be calculated at the rate of £25 per hour.
