Water Treatment

1. How old is the water treatment equipment used for the Sterile Services Department and Endoscope Reprocessor?

The RO system in sterile services is at least 15 years old and we have multiple water treatment plants in the different endo areas: Main theatre, CHFV and main endo UHL of various ages.

2. Are there any future plans to replace the water treatment plants for the Sterile Services Department or the Endoscope Reprocessor?

The only replacement planned for the RO plants is main Endo UHL where we are having an extension to the current facility scheduled for Oct this year.

3. Who is the manufacturer of the current water treatment plant for the Sterile Services Department or the Endoscope Reprocessor?

Cardiff and Vale UHB have two providers of water treatment plants, they are General Waters and Envirogen.

4. Who currently maintains the water treatment plant for the Sterile Services Department or the Endoscope Reprocessor?

Sterile services are maintained by General Waters and Endo by Envirogen

If you have more than one hospital site – could you kindly give me the above requested information for all hospitals within your group.
