- **Is this contract annually renewed?** - No
- **Do you currently have plans to replace this system?** - No

#### System definitions:

- *Bed Management* – Real-time bed states are viewable and accessible, enabling more efficient management of bed occupancy and patient movements.
- *Diagnostic Reporting* - Test results which are electronically transmitted to the clinician who ordered them, with receipt acknowledgement.
- *Discharge Letters* - The ability to electronically generate and send detailed discharge letters to GPs and other relevant HCPs, when a patient is discharged from hospital-based services.
- *Integration Platform* - Software that supports the integration and interoperability of various clinical and management IT systems and services.
