

**Freedom of Information Act 2000 - Request Reference FoI/23/171**

**Cancer Diagnosis**

**Information Requested:**

a chemical company called Kernick and Son dealt with chemicals like Napthalenes/Agricultural Chemicals/General Chemicals/Mineral Acids etc between 1950 – Early 80s.

I am trying to find out if you collate data on persons who have been diagnosed with cancer in Monthermer Street, Cathays, Cardiff during the 1950's/60's/70's and early 1980's as it was a primarily residential neighbourhood with this company in the middle that were producing/storing chemicals.

If so can I obtain a breakdown of what type of cancers have been diagnosed and in what proximity to the company they were

**Response details:**

Cardiff and Vale University Health Board does not hold this information.
