

Freedom of Information Act 2000 - Request Reference FoI/23/062

DXA Facilities

1) Do you outsource your DXA scans? If Yes- please state the organisation providing this service and forward this FOI to your provider for completion (please continue to complete for any of the elements of the DXA pathway that are provided by your Trust/board)

No

2) In January 2023 how many DXA scanning machines did you have at your trust/board for clinical use?

a. n. Operational - 2 machines

b. n. not in use

c. n. accessible outside of Trust

3) What is the average weekly capacity for clinical scans? (N. of scans per week)

180 scans per week

Typically scan 108 patients per week

4) What was your average DNA rate over the last 3 months? (n. DNA/total n. scans booked)

9.7%

5) What age range do you include in your clinical scans? Please tick all that apply

a. <20 years	X
b. 20-40 years	X
c. 40-60 years	X
d. 60-75 years	X
e. 75-80 years	X
f. >80 years	X

6) What is the duration of your routine DXA appointment:

a. 15 minutes or less	X
b. 16-25 minutes	
c. 26-30 minutes	
d. >30 minutes	

7) What was the average wait for clinical patients from referral to scan in January 2023?

a. <2 weeks (move to Q9)	
b. 2-6 weeks (move to Q9)	X
c. 6-13 weeks	
d. >13 weeks	

8) What are your perceived barriers to delivering DXA scans within 6 weeks from referral? Please tick all that apply

- a. Scanner capacity (DXA equipment)
- b. Clinical capacity (operator)
- c. Other- please state

Not applicable – please see question above.

9) What was the average time from the scan to the report being available to the referrer in January 2023?

a. <3 weeks (move to Q11)	X
b. 4-6 week	
c. 6-13 weeks	
d. >13 weeks	

10) What are your perceived barriers to referrers receiving DXA scan reports within 3 weeks from scan? Please tick all that apply

- a. Clerical- internal
- b. Clinical- internal
- c. Factors external to this service (please state)
- d. Other (please state)

Not applicable – please see question above.

11) What hospital department is responsible for delivery of DXA scans:

a. Radiology	
b. Medical physics	X
c. Nuclear medicine	
d. Rheumatology	
e. Other- please state	

12) Which DXA examinations are included in routine protocols for the clinical service? Please tick all that apply

a. Lumbar spine	X
b. Proximal femur	X
c. Long femur (AFF assessment)	
d. Total body	
e. Vertebral fracture assessment (VFA)	X
f. Peripheral/forearm	

13) What access facilities do you have available? Please tick all that apply

a. Overhead hoist	(in progress)
b. Portable hoist	
c. Wheelchair transfers	(with zimmer frame only)
d. Bed/trolley transfers	(with external staff only)
e. Changing room	X
f. assistance for transfers	
g. Other- please state	

Workforce:

1) i) What professional groups perform DXA scan measurements at your centre? (DXA operators)

a. Radiographer	
b. DXA technician	X
c. Assistant practitioner	
d. Clinical scientist	
e. Nurse	
f. Medical Dr- please state specialism	
g. Other- please state	
h. Unknown	

ii) Please indicate WTE for each group selected

3 WTE

2) What DXA-specific training (outside of professional training) have the DXA operators performing scans had?

a. In house	X
b. Manufacturers applications training	X
c. Recognized/accredited national training programme (please state the name of the training programme/provider)	National Training Scheme for Bone Densitometry – Royal Osteoporosis Society
d. Other- please state	
e. unknown	

3) What professional groups report your DXA scans at your centre?

a. Radiographer - internal	
b. Radiographer - external	
c. DXA technician – internal	
d. DXA technician - external	
e. Assistant practitioner – internal	
f. Assistant practitioner - external	
g. Clinical scientist – internal	X (calculations for paediatric scans)
h. Clinical scientist - external	
i. Nurse -internal	
j. Nurse - external	
k. Medical Dr – internal - please state specialism(s)	X Consultant Bone Specialist
l. Medical Dr – external - please state specialism(s)	
m. Other- please state	
n. Reporting is outsourced	
o. unknown	

4) What training (outside of professional training) have those reporting DXA scans had- specifically in DXA reporting?

a. In house	X
b. Manufacturers applications training	
c. Recognized/accredited national training programme (please state the name of the training programme/provider)	
d. Other- please state	
e. unknown	

5) What professional group provides clinical leadership for your service?

a. Radiographer	
b. DXA technician	
c. Assistant practitioner	
d. Clinical scientist	X
e. Nurse	
f. Medical Dr- please state specialism(s)	
g. Other- please state	
h. unknown	

6) Please indicate how many (WTE) clinical vacancies in your DXA service do you have in January 2023?

0 WTE

Quality:

1) Is your service accredited as part of a national programme?

a. ISAS	
b. IOS	
c. Other- please state	
d. None	X
e. Unknown	

2) What clinical audits do you routinely undertake? Please tick all that apply

a. DXA scan technique	X
b. Reporting (double reporting)	
c. Reporting (clinical review)	
d. Scanner QA review	X
e. Other- please state	
f. unknown	

3) What IR(ME)R audits do you routinely undertake? Please tick all that apply

a. Patient pregnancy	X
b. DXA dose audit	X
c. Referrer entitlement	X
d. Scan justification	X
e. Other- please state	
f. unknown	

4) What clinical protocols do you have in place? Please tick all that apply

a. Scan site	X
b. Scan mode	X
c. Reference data selection	X
d. Patient positioning	X
e. Scan analysis	X
f. Interpretation- T&Z-scores	X
g. Reporting	
h. Other- please state	
i. Unknown	

5) Which of the following are routinely included in the DXA report issued to the PRIMARY CARE referrer? Please tick all that apply

a. Admin. details	
i. Date of assessment	X
ii. Patient ID and demographics	X
iii. Reason for referral	
iv. Reporter's ID	X
b. BMD results for each measurement site	
i. T score (after peak bone mass)	X
ii. Z score	X
iii. Rate of change for serial measurements	X
c. Comment on reliability of measurements	
i. BMD results	X
ii. Documentation of excluded measurements e.g. vertebrae	X
iii. Statistical significance of rate of change	X
iv. Clinical significance of rate of change	X
d. WHO diagnostic category (for adults after peak bone mass)	X
e. Results of additional investigations performed at DXA appointment	
i. VFA	
ii. X-ray or other imaging	
iii. Laboratory tests	
f. Summary of clinical risk factors for fracture	
g. Summary of fracture history	
h. Clinical interpretation to quantify absolute fracture risk	
i. FRAX+BMD	
ii. FRAX + TBS	
iii. FRAX+BMD plus comment on additional adjustment	
iv. Statement on level of risk based on clinical judgement (e.g. low/moderate/high)	
i. Management advice	
i. Reference to national guideline (NICE/NOGG/ROS)	
ii. Reference to local management guideline	
iii. Individualised advice	
j. Recommendations on:	
i. Need for onward referral e.g. falls assessment or additional investigation	X
ii. Timing of future scan	X

6) Which of the following are routinely included in the DXA report issued to the SECONDARY CARE referrer? Please tick all that apply

a. Admin. details	
i. Date of assessment	X
ii. Patient ID and demographics	X
iii. Reason for referral	
iv. Reporter's ID	
b. BMD results for each measurement site	
i. T score (after peak bone mass)	X
ii. Z score	X
iii. Rate of change for serial measurements	X
c. Comment on reliability of measurements	
i. BMD results	X
ii. Documentation of excluded measurements e.g. vertebrae	X
iii. Statistical significance of rate of change	X
iv. Clinical significance of rate of change	
d. WHO diagnostic category (for adults after peak bone mass)	X
e. Results of additional investigations performed at DXA appointment	
i. VFA	
ii. X-ray or other imaging	
iii. Laboratory tests	
f. Summary of clinical risk factors for fracture	
g. Summary of fracture history	
h. Clinical interpretation to quantify absolute fracture risk	
i. FRAX+BMD	
ii. FRAX + TBS	
iii. FRAX+BMD plus comment on additional adjustment	
iv. Statement on level of risk based on clinical judgement (eg low/moderate/high)	
i. Management advice	
i. Reference to national guideline	
ii. Reference to local management guideline	
iii. Individualised advice	
j. Recommendations on:	
i. Need for onward referral eg falls assessment or additional investigation	
ii. Timing of future scan	
k. The secondary care report is the same as the primary care report	No
