Training strategy S-CAMHS

Information Requested:

Requesting information relating to your S-CAMHS service. Do they have a current training strategy?

Information Response:

Cardiff and Vale University Health Board (the UHB) do not have a training strategy for Emotional Wellbeing & Mental Health at this moment in time due to recent organisational change within the service.

Note:

Following on from the repatriation of S-CAMHS into the UHB, we have been integrating with our other emotional and mental health services for children and young people, including our Primary Mental Health (PMH) provision. The development of a training strategy is part of this integration.
