

Freedom of Information Act 2000 - Request Reference FoI/23/305
Medication Administration Record Chart (Mental Health)

Information Requested:

I am requesting this information under the Freedom of Information Act 2000

I'd like to request information or policy on the Medication Administration Record charts specifically for Mental Health in-patient settings, does the All Wales MAR Charts have a mental health in-patient specific chart. Please attach a sample of what it looks like, I'm working on a project on the administration of medication in mental health inpatient units.

Response Details

Cardiff and Vale University Health Board (the UHB) does not hold this information. Under our Section 16 obligation, the duty to provide advice and assistance I can advise The All Wales Therapeutics and Toxicology Centre (AWTTC), in their role as secretariat to the All Wales Medicines Strategy Group (AWMSG), has supported the 'Acknowledgement' of the 'Antibiotic Review Kit Hospital Medication Administration Record' which was developed by the Antimicrobial Resistance Delivery Board for Wales and is accessible on the [AWTTC Website](#). However, this chart is unlikely to be used in the context of mental health in-patients specified in the FOI request.

Please note 'Acknowledgement' from AWMSG means they were not involved in the development of the chart, but supported its promotion as an example of good practice.
