What [REDACTED] says is right, but I don't think it results in a fertility appointment hence us using our pathway

[REDACTED] was working on this

As under 18, they cannot use the adult pathway.

The Paed pathway is commissioned differently.

It has to be a IPFR submitted to the local health board, as an individual request(long complicated form).

It is GIDS that complete the IPFR form.

The TAVI should know this.

I can forward the link to the IPFR form if needed, [REDACTED]

Let me know, if need any further info.

But I think it's back to the Tavi GIDS service to action.

Hi all

I see [REDACTED] is 16 – I'm not clear about where they would sit in our pathway, please can we discuss so I can understand fully?

Thank you
