Subject: RE: Fertility guidelines? [Redacted]

Hi [Redacted]

I will ask this of one of the consultants at the WFI [Redacted] and hopefully get some more information.

Thanks

[Redacted] – do kindly see the enquiry from [Redacted] below if you could pick it up?
Thanks

Subject: Fertility guidelines?

Hi team,

I'm having a few trans men come through who are keen on fertility treatment but also VERY keen on getting going on HRT. [REDACTED] but am aware that there is a very long waiting list for fertility and thus they may get to the front of the HRT/LGT queue sooner than the fertility queue.

Do you have a copy of the guidelines from the fertility service(s) about what happens if they have already started testosterone before they get to the fertility clinic? [REDACTED] that we just don't have evidence about the quality of their eggs once they've started on testosterone but I want to be able to give them as much information as possible to make an informed decision about whether to hold off starting testosterone until after fertility preservation given that it could be a year or more!
