Thanks [REDACTED] please can I just check who the NW referrals would be to? I have a feeling it's Liverpool?  
Many thanks, [REDACTED]

Hi [redacted] some things to consider (sorry cant do tracking), [redacted]  
these 2 boxes

Fertility preservation	If you require fertility preservation there are two options. Mid and South Wales patients will be referred directly by WGS to the WFI. Referrals for north Wales patients will be arranged by the Local Gender Team after initial tests have been concluded.	
Speech and Language Therapy	If this is recommended, the WGS can refer directly to your local service and your GP is able to do this also.	

in the surgical box may wish to consider putting in the contact details, it is in the public domain  
The GDNRSS can be contacted directly by telephoning 01522 857799 or emailing [agem.gdnrss@nhs.net](mailto:agem.gdnrss@nhs.net).

Dear all

Please see attached a first draft for a refreshed leaflet.

This aims to provide a general overview of the pathway; also I'm aiming to make it really clear to patients what we can and can't help them with as the work of picking up/responding to/redirecting queries about surgery and LGTs is having a significant impact on admin time.

I would welcome your thoughts on this (using track changes please) by Friday 7<sup>th</sup> July.

If I haven't heard from you with comments by that date I'll assume you are happy with the copy, and after review by the Plain English folk, I'll send it for translation **\*no further amends can be made after this point\***

Many thanks
