

## Section E: Prescribing

		Evidence / Details	Yes / No
Q1	Do you have a SOP in place for the safe prescribing of CDs?	SOP Index attached - B19 Kaleidoscope Prescribing Guidelines.	YES
Q2	Do you have a system to routinely monitor prescribing of CDs?	CD's prescribed are Methadone, Buprenorphine (Espranor) and injectable Buprenorphine (Buvidal). Service users have regular nursing assessments during medication titration and regular medical reviews with Kaleidoscope doctor. On-site drug	Yes
Q3	Do you have a system in place to follow up on outlier prescribing?	Not applicable as no outlier prescribers	Not applicable
Q4	Do prescribers receive feedback on their prescribing?	Advised by Clinical Lead, [redacted] That this is in place	Yes
Q5	Do you benchmark your prescribing against that of similar size organisations?	National trends are looked at within the service. A safe prescribing regime is adopted which covers average dosing of medication.	Yes
Q6	Do you have a system in place to limit the quantity of CDs prescribed to temporary residents?	No temporary residents within the service	Not applicable
Q7	Is support and training available for medical prescribers?	A full induction is offered with supervision for prescribers. A new Non-Medical Prescriber has just been appointed within the service who is currently undergoing induction and will receive support and supervision from the Clinical Lead.	Yes
Q8	Is support and training available for non-medical prescribers?	Newly appointed Non-Medical Prescriber to the service - see Q8	Yes
Q9	Are any CDs supplied under a Patient Group Direction (PGD)?	No PGD in place for Controlled Drugs	Not applicable
Q10	Are those PGDs reviewed regularly?	NA	Not applicable
