

Freedom of Information Act 2000 – Request Reference FoI/24/242

Serenity Integrated Mentoring

Information Requested:

FOI Request about The SIM scheme, originally known as the Integrated Recovery Programme now referred to as **Serenity Integrated Mentoring and the High Intensity Network**

- Do you use the Serenity Integrated Mentoring and the High Intensity Network care model at Cardiff and Vale?
- Who's involved in the SIM scheme teams? Are they multi disciplinary teams?
- How many patients across Cardiff and Vale are currently involved with the scheme? Has your use of the scheme grown over the last 5 years - if so - by how much?
- Do patients consent to the sharing of confidential clinical information with the police? Or can confidential clinical information be shared with police without patient consent?
- What measures can the police use under SIM?
- How do you measure/monitor the effectiveness of the SIM scheme?
- Can patients be refused health care under SIM? General health care or A&E? If so, what is the scope of care that can be refused to a patient? Is there an appealing process for the patient? If so, how transparent is this process? And how can the patient go about appealing?
- Who monitors the status of a patient and declares if they are on SIM or not? Do individuals have to fit a certain criteria to be on SIM? If so, what is the criteria?

Response Details:

Cardiff and Vale University Health Board does not use 'Serenity Integrated Mentoring' locally, and therefore does not hold the information requested.
