

Freedom of Information Act 2000 – Request Reference FoI/24/179

MRI Counts

Information Requested:

Under the Freedom of Information Act please could I request the current MRI asset counts (number of MRI machines) from NHS Wales for all NHS health boards within Wales.

If you only hold the information for your board, please could you provide me this and kindly direct me towards whom I could contact to obtain the information from the remaining boards.

Response Details:

Cardiff and Vale University Health Board (the UHB) has five static MRI machines, four of which are located at University Hospital of Wales and one of which is at University Hospital Llandough.

There are also two mobile MRI scanners managed by the UHB, but these are not currently on Cardiff and Vale sites.

For a list of the NHS health boards and trusts in Wales, please refer to the following weblink: [NHS Wales health boards and trusts](#). You will be able to find the respective organisations' Freedom of Information Act 2000 policies on each of their websites available via the above weblink. Though please be aware that not all of the listed organisations have clinical functions.
