Really helpful thanks Matt - I am content with our position although I think procurement might be acting on the we are not to use ANC... I'm happy to talk to [REDACTED] again and have said I will attend any of her meetings where helpful to explain - can I share your briefing with Darren at NHS Confed doubt he's had anything so comprehensive.
Thanks Suzanne

Quick update on this.

I spoke to [REDACTED] where some of the concerns had been raised. The network doesn't seem to be meeting at the moment but I talked it through with him as I wanted to bottom out that there was no other information I wasn't aware of – the consultation response and the journal article were the only things he was aware of.

He understood that acting to boycott on the nature of a consultation response was a difficult position for CAV to take and said he'd let me know if he heard of any other information.

I briefly had the same conversation with David T last night.
