

Some interesting topics for inclusion here [redacted] – I wonder if a short update on the NHS Wales Executive as a whole might be helpful to share too in April / going forward?

Gyda chofion caredig a dymuniadau gorau
With kind regards and best wishes

Subject: Articles for April Newsletter

Hi all,

I thought I'd put a shout out for any suggestions anyone may have for articles or news stories they want sharing in the April edition of the National Pathology Programme newsletter. So far we have included/ are looking to include articles and updates on:

- 'Could cervical cancer become a thing of the past?'
- The suspected cancer pathway project expansion to focus on cellular pathology
- Lean – Using a new methodology to minimise the time taken to diagnose cancers
- LEAF Programme Bronze award
- Updates from the ESR Coding project
- SE and SW regional updates

Similarly, please let us know if there's an event or conference from May onwards you think would be worth including in this next edition.

I'll be chasing for updates on our workstreams in the coming weeks, but just to highlight we will need these by 29th March to give us time for translation.

Many thanks,
