

## Join us on Friday 17<sup>th</sup> September

This World Patient Safety Day, the Patient Safety Team are hosting a range of online staff seminars on key patient safety topics. The slogan this year is **act now for safe and respectful childbirth** with the theme **safe maternal and newborn care**.

We are delighted to announce that **James Titcombe OBE**, Patient Safety Campaigner and author of Joshua's Story will be joining us in Cardiff and will be holding a live open session during the day as well as visits to Maternity services and the Neonatal Unit.

We are taking the opportunity to launch our Quality, Safety and Experience Framework for 2021-2026 and will be running a number of sessions during the day to showcase some of the work that is already happening and is being proposed.

Please take advantage of the access to expertise we have arranged across our seminar line up.

Follow us **@CV\_UHBSafety**

We will be tweeting during the day

We are hosting Microsoft Teams Live Events

Please drop in to any sessions that are of interest using these links:

Morning sessions (9am-12 midday)
