

Help required identifying lost NHS Wheelchairs in the Community.

The Posture and Mobility service in Wales loses 100's of manual and powered wheelchairs each year mainly because families are unsure where their relatives acquired them from initially.

Our lost wheelchairs either end up getting donated to charity shops or even sold on Gumtree and Ebay.

To identify if the manual or powered wheelchairs belong to us please look for a white label on the frame of the chair as identified below.

If you identify any of our lost wheelchairs in the community it would be very much appreciated if you could contact us on 01443 661799 to arrange a free collection.

You can also e-mail us direct on RepairsSW.CAV@wales.nhs.uk
