

Cardiff and Vale University Health Board

Commissioning Intentions 2024 - 2027

Deliver high quality, value-based healthcare and clinical outcomes and better patient satisfaction. Provide environmentally sustainable patient pathways and an environment that will focus on prevention, aid recovery, dignity and healing, foster long-term patient managed health and are compliant with all relevant regulations.

Become a centre of Excellence, a magnet and an anchor for learning, research and innovation for the region and Wales overall; fully integrated into the local community, fostering a sense of ownership and pride.

Promote staff wellbeing and recognise innovation and staff effort. Enable recruitment, greater satisfaction and retention of high-quality staff, maintain a high calibre workforce and provide education and training necessary for their professional development.

Become a pioneer for **using innovative ways to understand activity**, by:

- Proactively utilising technology in delivery of care, with a focus on prevention and long term wellness;
- Developing a platform adaptable for future technology integration;
- Utilising Artificial Intelligence and machine learning to deliver precision medicine.

Building on our established multi-agency approach working positively and strongly **drive up the health status of the population by focussing on disease prevention** at primary, secondary and tertiary levels, promoting health and wellbeing, and targeting the populations with the highest social inequalities. Apply learning, through the lens of the pandemic experience, especially to groups with specific needs such as co-morbidities, learning disabilities, vulnerable groups and Black, Asian and Minority Ethnic communities.

PUTTING PEOPLE FIRST

- Empower our colleagues and our communities
- Attract, retain and develop brilliant, passionate people
- Provide excellent training and a culture of continuous learning
- Services provided by the right team: professionals with the right skills, training and expertise.
- Respect and exemplify equality, diversity and inclusion
- Embed a culture of Candour

ACTING FOR THE FUTURE

- Advance health care through research, clinical innovation and continuous improvement
- Maximise our contribution to the foundational economy, using our position as an anchor institution and key contributor to the health and life science sectors in Wales.
- Respond to the climate emergency, protecting and promoting biodiversity and reducing waste
- Ensure provisions for future generations by consciously considering the impact of our planning and decision making on future generations and planning for their needs
- Reduce emissions and embed emission efficiencies into processes, introduce LED lighting and use of Battery-electric vehicles and use digital technology to reduce travel

HEALTH INEQUITY AND INCLUSION

- Work with our partners towards improve health and reduce inequalities in health outcomes focusing on wellness, prevention & early intervention
- Focus on deprived populations, people with co-morbidities, LD, vulnerable groups & ethnic minorities
- Improve the health and wellbeing of individuals who find it hard to access healthcare
- Work with our internal and external partners to embed a consistent approach to engagement and co-production to ensure our communities are effectively involved in developing our plans for future services

PROVIDING OUTSTANDING QUALITY

- Focus on minimising inequity to reduce the current life expectancy and healthy years lived gap
- Work with our partners and population to improve health and reduce the risk of ill-health
- Deliver outstanding quality of care every time
- Achieve the best outcomes for patients in line with what matters most to them and their families and carers
- Use quality to drive the best use of our resources
- Reduce length of stay and increase effective discharges to avoid readmissions
- Work closely with our university, further education, life sciences and research partners to develop and deliver our research and innovation objectives and to further develop and support our workforce

FINANCIAL SUSTAINABILITY

- Work within existing allocation, including any uplift
- Achieve agreed level of cost improvement
- Ensure financial sustainability within agreed timeframe

DELIVERING IN THE RIGHT PLACES

- Provide care in the right care setting for the care required, closer to home or at home where possible.
- Provide the right environment of care – community facilities primary, secondary & tertiary prevention
- Develop effective digital platforms and connectivity to enable our workforce, partners, patients and public to improve all aspects of communication and information
- Support patient self-care & management, Increase social prescribing and early intervention and support prevention activities in primary and community settings
- Increase community diagnostics and point of care testing, risk stratification, remote surveillance & monitoring
