

User Guide:

Nebulising with the PARI LC SPRINT®

Please ensure you read the Instructions For Use that come with the nebuliser and compressor, which give a more detailed description than this short guide. The instruction manual is included in the device package. If lost you can download the manual at www.pari.de/en or request it by calling 01932 341122.

			
<p>1</p> <p>Always wash hands thoroughly before use.</p>	<p>2a</p> <p>Attach the mouthpiece or mask.</p>	<p>2b</p> <p>If using a BABY mask, always use the BABY bend and position the mask according to the position of the baby.</p>	<p>3</p> <p>Connect the nebuliser and compressor with the connection tubing. Connect the compressor to the mains power supply.</p>
			
<p>4</p> <p>Open the cap.</p>	<p>5</p> <p>Fill the nebuliser with the amount of medication prescribed by your doctor.</p>	<p>6</p> <p>Sit up and relax. Switch on device.</p>	<p>7a</p> <p>Place the mouthpiece between the teeth and close the lips around it, or place the mask tightly over the mouth and nose.</p>
			
<p>7b</p> <p>Always keep the nebuliser vertical. For babies gently press the mask over the mouth and nose.</p>	<p>8</p> <p>Breathe in slowly and deeply through the mouthpiece or mask. Breathe out again slowly and fully. When a different noise comes from the nebuliser, this indicates nebulisation has finished.</p>	<p>9</p> <p>Switch off device. Disconnect the nebuliser from the tubing. Switch the device back on to dry the tubing.</p>	<p>10</p> <p>Disconnect the power plug.</p>

Nebulising with the PARI LC SPRINT®

Please ensure you read the Instructions For Use that come with the nebuliser and compressor, which give a more detailed description than this short guide. The instruction manual is included in the device package. If lost you can download the manual at www.pari.de/en or request it by calling 01932 341122.

Advice on hygiene when nebulising at home

Cleaning

- Dismantle the nebuliser into separate parts.
- Wash all parts with warm water and some washing up liquid.
- Thoroughly rinse all parts under running water.

Disinfecting

- In a sufficient amount of boiling water (for at least 5 minutes).
- Vaporisator (steam disinfectant).

Drying

- Place all parts on a dry, lint-free cloth (for at least 4 hours). Before re-assembling, all parts must be completely dry.

Storage

- Store parts in a dry, dust-free environment.

Maintenance: at least once a year

- Change nebuliser, air filter and connection tubing (PARI Year Pack). If dirty or damaged, replace sooner.
