

## Directions to the Clinical Research Facility from the Concourse

Enter concourse, climb the stairs or use the lifts to the ground floor, following the signs for A and C blocks

Walk along the corridor past the Outpatient Suites until you reach a set of stairs on your left hand side opposite X ray. Climb the stairs to the Upper Ground Floor and turn right following the signs to 'C' block. If you are unable to climb stairs continue straight forward past X Ray until you reach the Visitors lift. Take the lift to Upper Ground Floor. On exiting the lift turn left following the signs to 'C' block.

Clinical Research Facility signs start half way down the corridor. They hang from the ceiling and have a pink square with direction arrows at one end.

Turn left at the second sign. Walk past the lifts and stairs. Continue down the corridor where you will pass under the third sign above a door frame.

When you reach the fourth sign just before the exit turn right. Walk past the post room and through the double doors. You have now reached the Clinical Research Facility, where you will see the reception desk.

**Clinical Research Facility**  
Upper Ground Floor (C Block)  
University Hospital of Wales  
Heath Park, Cardiff  
CF14 4XW
